EDUCATION

June 2024 - Present
KOLEJ POLY-TECH MARA (KPTM) BATU PAHAT

- Diploma in Information Technology (current CGPA: 3.87)

SKILLS

- Kotlin — Intermediate
- Firebase — Intermediate
- Java — Intermediate
- Android Studio — Intermediate
- HTML & CSS — Intermediate
- PHP & MySQL — Beginner
- UI/UX Design — Intermediate
- Communication & Teamwork — Excellent
- Problem-solving — Excellent
- Adaptability & Fast Learning — Excellent

LANGUAGES

- English (Fluent)
- Malay (Fluent)

OBJECTIVE

Motivated Information Technology student with skills in software development, mobile application development, UI/UX design, and real-time system development using Kotlin, Firebase, Java, and Android Studio. Able to work well under pressure, adapt quickly, and communicate effectively in team environments. Seeking an internship opportunity to gain practical industry experience and expand technical knowledge in software development, IT systems, telecommunications technologies, and real-world technical operations.

WORK EXPERIENCE

Heromarket Wangsamaju June 2021--May 2024
Assistant Supervisor

- Assisted in supervising daily operations and coordinating staff in a fast-paced environment
- Managed customer service issues and resolved operational problems efficiently
- Supported team communication and task delegation during peak hours
- Trained and guided new staff members on workplace procedures and service standards
- Demonstrated leadership, adaptability, problem-solving, and calm decision-making under pressure
- Developed strong communication and teamwork skills through daily operational coordination

PROJECTS

StudySync — Student Collaboration Mobile Application January 2026--Present

- Developed an Android mobile application using Kotlin, Firebase, Java, and Android Studio
- Implemented real-time chat, task tracking, authentication systems, and file upload functionality using Firebase services
- Integrated cloud database synchronization and real-time system functionality for collaborative usage
- Designed a clean and user-friendly interface following Material Design principles
- Strengthened technical problem-solving, teamwork, and mobile application development skills through practical project implementation

Rasa Warisan — Web-Based Restaurant Reservation System 2025

- Participated in the development of a web-based restaurant reservation system using HTML, CSS, Bootstrap, PHP, and MySQL

- Assisted in designing user interface layouts and reservation workflow functionality
- Contributed to project planning, testing, and documentation processes with team members
- Gained exposure to authentication systems, database structures, reservation management systems, and responsive web application concepts
- Used development tools such as Visual Studio Code, XAMPP, and Figma during project development

Assignment Rush - Browser-Based Productivity Game May 2026 -- Completed

- Developed a browser-based game featuring combo mechanics, score tracking, and dynamic difficulty progression.
- Designed a responsive interface with custom assets, animations, and mobile controls.
- Deployed the project publicly using GitHub Pages.
- Live Demo- Assignment Rush
- GitHub :Source Code

ACHIEVEMENTS & LEADERSHIP

Academic Excellence Award — Majlis Apresiasi Pelajar 2025

- Received academic appreciation award for achieving GPA 3.96 in Semester 1 and Semester 2

Program Director — Program Sukaneka Ceria (Khidmat Masyarakat) 2026

- Led and coordinated a community service program involving over 20 committee members and activities for PASTI students
- Managed program planning, task delegation, event coordination, and overall project execution
- Strengthened leadership, communication, teamwork, and project management skills through real-world event organization

IT Ideation Competition Participant 2026

- Received a silver award in an IT Ideation & Innovation Competition for presenting StudySync, a student collaboration mobile application
- Presented application concepts, system functionality, and project objectives to evaluators and audiences in a formal innovation showcase environment
- Demonstrated skills in product presentation, technical communication, problem-solving, and software innovation pitching
